Education

University of Waterloo

Candidate of Bachelor of Software Engineering, Honours Software Engineering, Co-op

Waterloo, Ontario, Canada

2025 — 2030

Vanier College

Diploma of College Studies, Computer Science & Mathematics

Montreal, Quebec, Canada

2023 — 2025

Skills

- **Languages:** Java, Python, C, Shell, Kotlin, Rust, Swift, Typst, LaTeX
- **Tech/Tools:** Git, GitHub Actions, Linux, NGINX, Docker, Ktor, Flask, Probot, SwiftUI, Quilt

Experience

Software Developer 🐙

Waterloo Rocketry

Sep 2025 — Present

Waterloo, Ontario, Canada

- Built Mission Control System infrastructure to enhance deployment efficiency and system reliability by implementing Docker containerization, Ansible configuration management, and Python-based functionalities.
- Mentored less experienced team members to improve the team's overall software development capabilities by teaching software development best practices, tools, and collaborative workflows.

Teaching Assistant (Java), Data Structures and Object Oriented Programming

Vanier College

Jan 2025 — May 2025

Montreal, Quebec, Canada

- Supported 61 students to improve subject comprehension by clarifying course concepts and assignment requirements.
- Graded 6 assignments to evaluate student performance by providing timely and constructive feedback.

Sub-Captain, Programming Competition Subteam 🐙

Vanier Robotics Team

Sep 2024 — May 2025

Montreal, Quebec, Canada

- Prepared the team by organizing and leading 10+ Python and algorithm-focused preparatory workshops.
- Achieved 1st place in Division 1 at CRC TakTik 2025 programming competition with the team.

Tutor, Math and Science

Vanier College

Feb 2024 — Jul 2025

Montreal, Quebec, Canada

- Tutored 30+ students in Math, Physics, and Java-based Computer Science courses to improve academic performance by reinforcing core concepts and promoting critical thinking with practice problems tailored to individual needs.

Projects

Typstify - Swift, SwiftUI, Rust 🐙

Jul 2024 — Present

- Developed a native Typst editor for iPadOS to enable professional document creation on iPads by leveraging SwiftUI with Rust backend integrated via swift-bridge, a library facilitating interoperability between Swift and Rust.
- Contributed to 3 upstream dependencies to strengthen both the app and the broader open-source ecosystem by submitting code patches and bug reports.

Maintainer, ungoogled-chromium-macos 🐙

Nov 2023 — Present

- Delivered 100+ releases to 5000+ users to provide a privacy-focused browsing experience on macOS by tracking upstream updates and maintaining build scripts and patches.
- Reduced the CI build time by 40% to accelerate release cycles by optimizing GitHub Actions workflows.

Additional Information

- **Honour and Awards:** Winner of Hack the North 2025 QNX Software Challenge, Canadian Senior Mathematics Contest Distinction (2024), 2 x Canadian Computing Competition Distinction (2023, 2024)
- **Activities:** Programming Competition Problem Setter at CRC Robotics
